WATER EMERGENCY CONTACT PROCEDURE

If you have a water pressure problem/emergency call the office number (503) 368-7309 and if no one answers, be sure to leave a message as the line might be in use when you call and will kick you over to messaging. If you don't reach anyone at the office, then call (503) 804-4649 and if no answer, also leave a message. You can also come to the office, 9155 Nehalem Rd. during regular hours.

BACKFLOW DEVICE INFORMATION

An Ordinance of the Neahkahnie Water District requires all customers with landscape irrigation systems, hot tubs or other devices that could contaminate the District's water system to have Backflow Prevention Assemblies installed. These Assemblies prevent backflow of water into the District's water system in the event of a pressure drop in the system. The Assemblies must be annually tested and certified to be functioning properly by a state-certified backflow assembly tester. A Test/Report Form documenting successful completion of this annual test must be filed with the Neahkahnie Water District before March 31 of each year. Failure to comply with this Ordinance can result in a water shut off to the property.

Managing our water system's cross-connection control and backflow prevention program maintains our district's compliance under Oregon Health Authority rules and serves to protect the quality of everyone's drinking water.

Please do not hesitate to contact us with any questions or concerns.

Sincerely,
Neahkahnie Water District
